

Environment- & quality policy

Fortiva AB offers Swedish industry tools and services related to metal cutting operations. With great knowledge, passion, and new thinking, we increase our customers competition status.

Our customers shall be satisfied with Fortiva in order to deliver in right time, place and with expected quality. We shall be open for our customers requests and aim to full fill their technical needs.

Our organization are built on a near cooperation with our customers. We shall protect our environment by less affect from our transports and in general aim for less strain on the environment in consideration to quality and cost.

We will continue to work with operational improvements, decrease the environmental effects and make sure that regulations are followed properly.

Henrik Palmgren
CEO
